

ROTARY CLUB OF COROWA

PRESIDENT: PAUL MOWLAM

WEEKLY BULLETIN

PRINTED 23/04/2012
VOLUME 73 ISSUE 38

LAST MEETING - The guest speaker didn't make it so Graham and Margaret gave us a run down on the ride to conference. Graham gave a commentary while Margaret showed pictures and finished his sentences. Some 600km were covered in 6 days with \$16543 being raised of which \$835 was from Corowa. The highlight of the ride was a lovely 25 y.o. female. Margaret had a GPS and didn't get lost, Graham didn't and did. Someone else with no name got lost but found light at the end of a tunnel somewhere and was found. Graham had 'crabs' on his leg.

A great ride. Top result

Without any Rotary information or announcements, discussion around the table centred about -

- Eating asparagus and the consequent smells that only some people are capable of smelling.
- Broccoli – nice or yucky?
- Brussel sprouts increase libido – fact or fiction?
- Eating fried pumpkin skin.
- Lambs fry

Riveting stuff.

Fines

Do not hoon around the monument roundabout if you have a stove on the back of a ute. **Big Mess.** Just ask Neil.

Attendance

64%

No birthdays.

Raffles - after difficulties with numbers and the barrel . .

Did you hear about the blond who got stuck on an escalator for 2 hours after a power failure?

I've learned that it takes years to build up trust, and only suspicion, not proof, to destroy it.

I've learned that we are responsible for what we do, unless we are celebrities.

I've learned that you shouldn't compare yourself to others - they are more messed up than you think.

A blonde was driving her car home one night when she suddenly found herself in the middle of a really bad hail storm. The hail stones were as big as golf balls. Her car was dented badly. The next day she took it to a repair shop. The repair guy, noticing that she was blond, decided to have some fun. He told her to blow into the tail pipe really hard when she got home, and the dents would pop out. When she got home she started blowing into the tail pipe, and her blonde girl friend saw her. Her friend was startled and said "What are you doing?" and thinking the worst. She told her the repair guy had told her to blow into the tail pipe really hard and the dents would pop out. Her girl friend said, "Well duhhhh... you need to roll up the windows first."

Men-tal Anxiety... Men-opause... Men-tal Breakdown. Ever notice that all our problems start with MEN?

Q. Why does the law society prohibit sex between lawyers and their clients?

A. To prevent clients from being billed twice for what is essentially the same service.

Lawyer's creed:

A man is innocent until proven broke.

A golfer and his buddies were playing a big round of golf for \$200. At the eighteenth green the golfer had a ten foot putt to win the round, and the \$200. As he was lining up his putt, a funeral procession started to pass by. The golfer set down his putter, took his hat off, placed it over his chest, and began to wait for the funeral procession to pass. After it passed, he picked up his putter and returned to lining up his putt. One of his buddies said, "That was the most touching thing I have ever seen. I can't believe you stopped playing, possibly losing your concentration, to pay your respects. "Well" he said "we *were* married for 25 years."

Just think how much deeper the ocean would be if sponges didn't live there.

If a cow laughed, would milk come out her nose?

I went for a walk last night, and my kids asked me how long I'd be gone. I said, "The whole time."

If it's tourist season, why can't we shoot them?

If the universe is everything, and scientists say that the universe is expanding, what is it expanding into?

What would a chair look like if your knees bent the other way?

Why is it lemon juice contains mostly artificial ingredients, but dishwashing liquid contains real lemons?

Why do we wash bath towels? Aren't we clean when we use them?

Why do we say something is out of whack? What is a whack?

Why are a wise man, and, a wise guy opposites?

It annoys me when people say "It's always in the last place you look". Of course it is. Why the hell would you keep looking after you've found it? Do people do this? . . . they're not stupid! . . . ?
